

Renewable Energy

Wind, solar, geothermal, wave, biomass, green power

Wednesday
February 25, 2009
6–7:15 p.m.
Eliot 314

- Research/development, clean technology
- Energy economics, finance, law
- Policy, planning, advocacy
- Environmental impact, siting/permitting
- Energy efficiency/conservation

ASK THE EXPERTS...

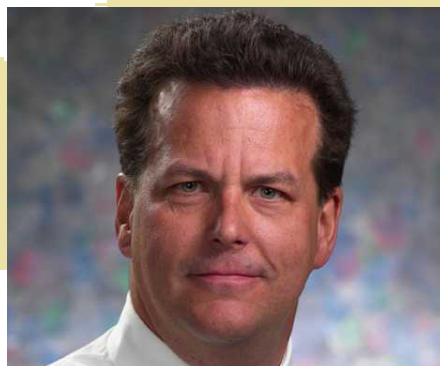

Andy Linehan '78, international studies; MPA, Princeton
Director, Wind Energy Permitting, Iberdrola Renewables
Wind energy planning, siting, permitting; environmental impact studies

Peter Mostow '87, philosophy/religion; JD, Yale
Partner, Wilson Sonsini Goodrich & Rosati
Solar, wind, geothermal, biomass, clean technology law & finance

Rachel Shimshak, economics/sociology, University of Oregon
Director, Renewable Northwest Project
Appointee, Oregon Energy Planning Council
Energy policy, planning, legislation, education, advocacy
Wind, solar, geothermal, wave/tidal, biomass, natural gas

Thomas Starrs, energy and resources, PhD, UC Berkeley;
JD, Boalt Hall School of Law at UC Berkeley
C.E.O., Solar Energy Ventures, LLC
Solar energy development, financing, manufacturing

...and guest alumni working in this field.
